

Kina Petroleum Corporation – Corporate Governance Plan (February 2019)

1. General

Kina Petroleum Corporation ARBN 629 063 547 (“Company”) corporate governance framework has been formulated in light of the corporate governance principles and recommendations released by the ASX Corporate Governance Council, 3rd edition with 2014 Amendments (“Principles and Recommendations”). The Company's framework largely complies with these Principles and Recommendations. Consistent with the Company's approach to sound corporate governance, opportunities for improvement are regularly considered.

The Directors are responsible to shareholders for the performance of the Company and their focus is to enhance the interests of shareholders and other key stakeholders and to ensure the Company is properly managed. The main processes that the Directors of the Company use in doing so are set out in this plan.

2. Board Charter

The Board Charter in Annexure 1 sets out the principles for the operation of the board of directors of the Company (“Board”) and the functions and responsibilities of the Board and management of the Company.

3. Board Committees

Audit and Risk Management Committee

The Board has established an Audit and Risk Management Committee. This committee will be central to the Company’s process to ensure integrity in financial reporting and to ensure the Company address the material risks to its business and reputation. The committee will have at least 3 members and will adopt its own Charter setting out the roles, responsibilities and objectives of the committee.

The establishment of further Board Committees will be reviewed at the appropriate stages of the Company’s development. The external auditors and other officers of the company may attend meetings of the Committee by invitation.

PriceWaterhouseCoopers has been appointed as external auditor to the Company. The Audit and Risk Management Committee is responsible for the selection and recommendation of the company’s external auditor. The audit committee has recommended the external audit service be put to tender on a tri-annual basis. Further that in the event the external auditor is retained post 3 years that the engagement partner be rotated on a 5 year basis.

The external auditors have direct access to the Chairman of the Audit Committee and where necessary, the Chairman of the Board. The Audit Committee meets with the external auditors without management present on an as required basis, but at least once a year. The external auditor attends the Annual General Meeting and is available to answer questions from shareholders.

The Audit and Risk Management Committee Charter is provided in **Annexure 4**.

Nomination and Remuneration Committee

Principle and Recommendation 2.1 recommends the Board should establish a nomination committee. Principle and Recommendation 8.1 recommends the Board should establish a remuneration committee.

The Board has not established a Nomination and Remuneration Committee at this point in the Company's development. It is considered that the size of the Board along with the level of activity of the Company renders this impractical and the full Board considers in detail all of the matters for which the directors are responsible.

To assist the board in fulfilling its responsibilities, the board has adopted a Nomination and Remuneration charter, a copy of which is provided in **Annexure 5**.

4. Risk Management

The Company has a risk management program that is reviewed by the Audit and Risk Committee and approved by the Board. The program is designed to ensure risks (strategic, operational, legal, reputational and financial) are identified, assessed, addressed and monitored to enable the Company to achieve its business objectives.

The Company's risk management program is managed by the Audit and Risk Management Committee. The Board receives periodic reports on progress in addressing the risks. The Audit and Risk Committee has the right to appoint external professional advisers to carry out investigations into control mechanisms and report their findings, including recommendations for improvement to controls, processes and procedures, to the Audit and Risk Committee.

The Audit and Risk Management Committee Charter is provided in **Annexure 4**.

5. Code of Conduct

The Code of Conduct was adopted to reflect current business and community expectations. In summary, the Code of Conduct requires that at all times Directors and employees act with the integrity, objectivity and in compliance with the letter and spirit of the law and Company policies.

The Code of Conduct requires employees who are aware of unethical practices within the Company to report these using the avenues available under the Corporate Governance manual.

Employees have direct access to the Executive Directors or, if this would cause a conflict, the Chairman of the Board. The Company's Code of Conduct is provided in **Annexure 2**.

6. Dealings in Kina Petroleum Corporation's securities by Directors and employees

Directors and officers are subject to laws relating to conduct by a person in possession of inside information. A person possesses inside information, if they know, or ought to reasonably know, that if the information were generally available, a reasonable person would expect it to have a material effect on the price or value of the Company's securities.

Directors and officers in possession of inside information are prohibited from trading in the Company's securities.

The Board is responsible for ensuring that management put in place an education program that makes all employees aware of their legal obligations with respect to insider trading.

The Company's Share Trading Policy is provided in **Annexure 3**.

7. Continuous disclosure and shareholder communication

The Company Secretary is responsible for communication with the Australian Securities Exchange (ASX). This includes ensuring compliance with the continuous disclosure requirements in the ASX listing rules and overseeing information disclosure to analysts, brokers, shareholders, the media and general public.

The more important legal obligations are summarised below:

- Directors will act honestly, and exercise reasonable care and diligence at all times in the performance of their functions;
- a Director or former Director will not make improper use of information acquired by virtue of position;
- a Director will not make improper use of position to gain a direct or indirect advantage for self or any other person; and
- Directors have a fiduciary duty to the Company and a duty to act with loyalty and in good faith.

Responsibilities of staff

Staff members should undertake at all times to comply with or observe all applicable laws and regulations.

Staff members should not take any action which they know or should reasonably know violates any applicable law or regulation. Where operating rules are laid down they should be followed. The correct Company forms, which have been prepared with legal requirements in mind, should also be used.

Responsibilities to stakeholders

The Company strives to be a good corporate citizen.

Accordingly, the standards of personal behaviour applicable to staff members are as follows:

- they must have an understanding of the Company's business and the environment in which it operates, and stay informed of all relevant activities affecting the Company and the community in which it operates;
- they will treat each other and parties who have interest in or dealings with the Company with professionalism, courtesy and respect. They will work cooperatively with fellow staff members towards agreed goals, whilst accepting the obligation to

supervise or be supervised in the discharge of their duties. Staff members will deal fairly with all parties who have legitimate business with the Company;

- Directors and Officers are obliged to exercise due judgement in their decision making process and will not attempt to improperly influence their colleagues in issues or matters where independent judgement is expected of the other person; and
- Directors and Officers who may communicate publicly (through lectures or papers) on material related to the Company's affairs will in general convey views agreed by the Board. If material beyond this is made public, it should be clearly identified as the view of the individual. Any views attributed publicly to the Board or the Company should be cleared in advance — preferably with the full Board, but at least with the Chairman.

Conflicts of Interest

Staff members owe their primary business loyalty to the Company. They must not participate in any decision, by or on behalf of the Company, which may affect any private business in which they have an interest, unless they have disclosed the nature and extent of that interest to a relevant senior manager in the Company.

Staff members must obtain the consent of the CEO/MD through the Company Secretary before accepting a position as a director or member of the board of an external company or organisation. The staff member, who has received such approval, will advise the Company Secretary promptly of any changes to relevant interests such as directorships, partnerships and holdings in securities. The Company Secretary will inform all Board members and the regulatory authorities, if required. Directors will normally be advised at the next meeting, but more urgently if appropriate to the circumstances. Interests are confirmed annually in writing to the Company Secretary prior to inclusion in the Directors' Report.

A staff member may, generally, not approve or administer contracts or other business arrangements between the Company and a member of the staff member's immediate family or with a company, firm, or individual employing a member of the staff member's immediate family in activities under the staff member's administration. In the particular case where the Board may decide that a staff member (who is also a Director) may properly supply goods or services on commercially acceptable terms to the Company, details will be provided in the annual Directors' Report and Notes to the Financial Statements.

Staff members must avoid acquiring any business interests or participate in any business activity outside the Company which would tend to:

- create an excessive demand upon the staff member's time and attention or create any distraction during working hours; or
- create a conflict of interest, that is, an obligation, interest or distraction which would interfere with the independent exercise of judgement in the Company's best interest.

A staff member may not use Company personnel, facilities, equipment or supplies for personal benefit contrary to the Company's policies and procedures.

Ethical Standards

Kina is committed to fostering a climate of ethical behaviour and business practice. Key issues which staff members must consider when making any decision on the Company's behalf are:

- Is it the right thing to do?
- Is the decision or contemplated business conduct lawful?
- Is it consistent with this Policy?
- What will be the outcome for the Company, shareholders, colleagues and other stakeholders?
- Does a conflict of interest arise?
- Is the decision one that would stand public examination and scrutiny?

The Company encourages staff to report in good faith suspected unlawful/unethical behaviour.

Any member of staff who is uncertain as to whether an act or omission constitutes unlawful or unethical behaviour or who wishes to make a report should contact the Company Secretary directly.

The Company Secretary will then determine what action, if any, should be taken.

The Company Secretary will treat as confidential all such queries and reports except where action is to be taken. In which case, the Company Secretary shall seek to maintain the identity of the staff member confidential, unless the circumstances demand otherwise.

Fair Dealing

Staff members shall not use their positions within the Company to seek personal gain from those doing business or seeking to do business with the Company nor accept such gain if offered.

Staff members must not engage in any act that could be interpreted as seeking or receiving a bribe, secret commission or questionable payment. Decisions made by staff members in the course of their work must be objective and based solely upon the best interest of the Company. They should never be influenced by any consideration of personal gain or gain to any personal associate (e.g. friend or relative). Except as noted below, staff members may neither seek nor accept gifts, payments, services, fees, pleasure or vacation trips or accommodation, or loan (except normal loans from regular lenders, on conventional terms) from any person, organisation or group that does business or is seeking to do business with the Company or any of its affiliates, or from a competitor of the Company or any of its affiliates.

A staff member may not accept gifts, services or entertainment from individuals or companies doing or seeking to do business with the Company, unless the transaction meets all of the following requirements:

- is in keeping with good business ethics;
- is customary and proper under the circumstances and gives no appearance of impropriety;
- serves a valid business purpose;
- does not impose any sense of obligation on the recipient to the donor;
- does not result in any kind of special or favoured treatment of the donor;
- cannot be viewed as extravagant, excessive or too frequent considering all the circumstances;
- does not involve cash payments, gift certificates, credit arrangements of any kind or any item having a value of more than \$100;
- does not involve materials, services, repairs or improvements at no cost or at unreasonably low prices; and
- there is no effort made to conceal the full facts by either the recipient or the donor.

Confidentiality

It is a policy of the Company to honestly and openly provide information to those who have a legitimate interest in its operations. In addition to formal reports to regulatory authorities and reports to the public and shareholders required by statute, the Company may provide extensive information on its activities by way of a variety of publications and through continuing working relations with news media, financial analysts and others. The extent, timing and form of such public disclosure are matters for senior management. Apart from concern for the privacy of staff members, the Company also operates in a competitive business environment. Consequently, it would be inappropriate for the Company to disclose information, which if published, might impair its own effectiveness and competitiveness.

Accordingly, Company documents such as circulars, manuals, records and internal communications materials, especially materials marked "Confidential", must never be shown to outsiders without proper authorisation. Care should be exercised in conversations about the Company with outsiders or with fellow staff members in public places.

The obligation of staff members to safeguard the privacy of fellow members of staff and to protect the confidentiality of the Company's own affairs continues with equal force if the staff member leaves the service of the Company.

In conversations with customers or other staff members and when on the telephone, care must be taken to prevent outsiders from overhearing confidential personal information.

Information should not be divulged over the telephone unless the identity of the caller and his or her right to receive the information are definitely established. Particular care should also be taken in answering enquiries and data given must be limited to that permitted by standard Company practice. Appropriate legal advice should be obtained where doubt exists.

The same considerations apply to the privacy rights of members of staff and similar care to avoid breaching these rights must be exercised by those staff members who, by reason of their position, may have knowledge of another staff member's private affairs.

Inside information and Share Trading

Inside information about the Company's affairs or those of customers shall not be used by staff members for their own gain or that of others.

Staff members are often in possession of information (commonly referred to as "inside" information) which is not publicly available and which may have an impact on the price of the Company's securities. Staff must not disclose such information nor use such information for personal gain or for the advantage of others, such as friends or relatives. For example, trading in the Company's securities or advising others to do so on the basis of such special knowledge may also result in violation of insider trading laws and lead to criminal penalties.

Staff members are expected to comply with the Company's Share Trading Policy at all times.

Administration

It is recognised that staff members may have questions concerning whether certain of their planned or actual activities constitute departures from the guidelines of this Code. Such questions should be referred in writing to the CEO/MD through the Company Secretary.

It is also recognised that circumstances may arise where compliance with the Code may be achieved without strict adherence to the guidelines and where such strict adherence would be unreasonable or result in undue hardship for the staff member. In such circumstances, the pertinent facts of the case should be submitted in writing to the CEO/MD through the Company Secretary.

Annexure 3 – Share Trading Policy

Adopted by Board on 5 December 2018

Introduction

These guidelines set out the policy on the sale and purchase of securities in the Company by its Key Management Personnel.

Key Management Personnel are encouraged to be long-term holders of the Company's securities. However, it is important that care is taken in the timing of any purchase or sale of such Company securities to avoid "insider trading".

Accordingly the Board has adopted this Policy on dealing in the Company's securities by Directors and Employees. The objectives of this Policy are to:

- minimise the risk of Key Management Personnel contravening the laws against insider trading;
- ensure the Company is able to meet its reporting obligations under the Listing Rules; and
- increase transparency with respect to trading in the Company's securities by Key Management Personnel.

To achieve these objectives, Directors and Employees should consider this policy to be binding on them in the absence of a specific exemption by the Board.

In summary, this policy prohibits dealing in the Company's securities when those persons possess unpublished market price sensitive information. If a Key Management Personnel is uncertain of the status of unpublished information, they should discuss it with the Chairman before trading occurs.

Directors must also notify the Company Secretary of any trade in the Company's securities within three days of such trade occurring so that the Company Secretary can comply with the Listing Rule 3.19A.2 requirement to notify the ASX of any change in a notifiable interest held by a Director.

Any non-compliance with this Policy will be regarded as serious misconduct which may entitle the Company to take corrective disciplinary action.

2.0 What types of transactions are covered by this policy?

This policy applies to both the sale and purchase of any securities of the Company and its subsidiaries on issue from time to time.

The definition of "securities" in the Corporations Act is very broad. Securities include:

- ordinary shares;
- preference shares;
- options or performance rights;
- debentures; and
- convertible notes.

For the purposes of this Policy, the term "securities" also extends to financial products issued or created over or in respect of securities issued by the Company (for example, warrants and other derivative products), whether or not the financial products are created by the Company or by third parties.

3.0 What is insider trading?

3.1 Prohibition

Section 1043A (of Part 7.10, Division 3) of the Corporations Act makes it an offence for a person in possession of information that is not generally available but which, if generally available, might materially impact the price or value of Company securities to:

- trade in (i.e. apply for, acquire or dispose of, or enter into an agreement to do any of these things); or
- procure another person to trade in, Company securities (collectively referred to as deal in Company securities).

Contravention of section 1043A of the Corporations Act is a criminal offence and may also result in civil liability.

3.2 Examples

To illustrate the prohibition described above, the following are possible examples of price sensitive information which, if made available to the market, may be likely to affect materially the price of the Company's securities:

- (a) a material acquisition, joint venture, realisation or disposal of assets;
- (b) threat of material litigation against the Company;
- (c) the Company's sales and profit results materially exceeding (or falling short of) the market's expectations;
- (d) a material change in debt, liquidity or cash flow;
- (e) a significant new development proposal i.e., new product or technology;
- (f) the granting (or loss) or a major contract;
- (g) management or business restructuring proposal;
- (h) proposed changes in the capital structure, capital returns and buy backs of financial products;
- (i) proposed dividends and share issues;
- (j) changes to the Board;

- (k) an agreement or option to acquire an interest in a mining tenement, or to enter into a joint venture or farm-in or farm-out arrangement in relation to a mining tenement;
- (l) any information required to be announced to the market pursuant to Listing Rule 3.1 (the Continuous Disclosure rule); and
- (m) significant discoveries, exploration results, or changes in reserve/resource estimates from mining tenements in which the Company has an interest.

3.3 Dealing through third parties

It is also an offence to tip the information to another person with the knowledge that the person could deal in Company securities. A person does not need to be a Key Management Personnel to be guilty of insider trading in relation to securities in the Company. Accordingly, the effect of section 1043A of the Corporations Act cannot be avoided by simply getting another person to deal on your behalf. The prohibition extends to dealings by Directors and Employees through nominees, agents or other associates, such as family members, family trusts and family companies (referred to as “Associates” in this Policy).

3.4 Information however obtained

Trading is prohibited at any time if the person possesses inside information. It does not matter how or where the person obtains the information – it does not have to be obtained from the Company to constitute inside information. This means that section 1043A of the Corporations Act will apply to any Key Management Personnel who acquires inside information in relation to Company securities, no matter in which capacity and is prohibited from dealing in Company securities.

3.5 Employee share schemes

The prohibition does not apply to acquisitions of shares or options by Employees made under employee share or option schemes, nor does it apply to the acquisition of shares as a result of the exercise of options under an employee option scheme. However, the prohibition does apply to the sale of shares acquired under an employee share scheme and also to the sale of shares acquired following the exercise of an option granted under an employee option scheme.

4.0 Guidelines for trading in the Company’s securities

4.1 General rule

Key Management Personnel must not buy or sell Company securities during any of the following periods:

- (a) 15 calendar days (15) from the date of the Company's Annual General Meeting;
- (b) 15 calendar days (15) from the release of the quarterly results announcement to the ASX;
- (c) 15 calendar days (15) from the release of the half yearly results announcement to the ASX;
- (d) 15 calendar days (15) from the release of the preliminary final results announcement to the ASX; or
- (e) 15 calendar days (15) from the release of a disclosure document offering securities in the Company (**Closed Period**).

For the avoidance of doubt, during the Closed Period, Key Management Personnel must not deal in financial products issued or created over or in respect of the Company's securities.

The Closed Period may be extended, shortened or another Closed Period may be introduced at any time by direction of the Board. Notice of such changes will be specified to Key Management Personnel by email and to Directors by email and/or facsimile. Changes to the Closed Period are effective immediately upon the giving of such notice. Where an Employee does not have email access, it is the manager's responsibility to inform such Employee.

If a Key Management Personnel is in possession of price sensitive information which is not generally available to the market, then he or she must not deal in the Company's securities at **any** time.

4.2 No short-term trading in the Company's securities

Key Management Personnel should never engage in short-term trading of the Company's securities except for the exercise of options where the shares will be sold shortly thereafter.

4.3 Securities in other companies

Buying and selling securities of other companies with which the Company may be dealing is prohibited where an individual possesses information which is not generally available to the market and is 'price sensitive'. For example, where an individual is aware that the Company is about to sign a major agreement with another company, they should not buy securities in either the Company or the other company.

4.4 Exceptions

Key Management Personnel may at any time:

- (a) acquire ordinary shares in the Company by conversion of securities giving a right of conversion to ordinary shares;
- (b) acquire Company securities under a bonus issue made to all holders of securities of the same class;
- (c) acquire Company securities under a dividend reinvestment, or top-up plan that is available to all holders or securities of the same class;
- (d) acquire, or agree to acquire or exercise options under a Company share option plan;
- (e) withdraw ordinary shares in the Company held on behalf of the employee in an employee share plan where the withdrawal is permitted by the rules of that plan;
- (f) acquire ordinary shares in the Company as a result of the exercise of options held under an employee option scheme;
- (g) transfer securities of the Company already held into a superannuation fund or other saving scheme in which the restricted person is a beneficiary;
- (h) make an investment in, or trade in units of, a fund or other scheme (other than a scheme only investing in the securities of the Company) where the assets of the fund or other scheme are invested at the discretion of a third party;
- (i) where a restricted person is a trustee, trade in the securities of the Company by that trust provided the restricted person is not a beneficiary of the trust and any decision to trade during a prohibited period is taken by the other trustees or by the investment managers independently of the restricted person;
- (j) undertake to accept, or accept, a takeover offer;
- (k) trade under an offer or invitation made to all or most of the security holders, such as, a rights issue, a security purchase plan, a dividend or distribution reinvestment plan and an equal access buy-back, where the plan that determines the timing and structure of the offer has been approved by the Board. This includes decisions relating to whether or not to take up the entitlements and the sale of entitlements required to provide for the take up of the balance of entitlements under a renounceable pro rata issue;
- (l) dispose of securities of the Company resulting from a secured lender exercising their rights, for example, under a margin lending arrangement;
- (m) exercise (but not sell securities following exercise) an option or a right under an employee incentive scheme, or convert a convertible security, where the final date for the exercise of the option or right, or the conversion of the security, falls

during a prohibited period and the Company has been in an exceptionally long prohibited period or the Company has had a number of consecutive prohibited periods and the restricted person could not reasonably have been expected to exercise it at a time when free to do so; or

- (n) trade under a non-discretionary trading plan for which prior written clearance has been provided in accordance with procedures set out in this Policy.

The Company intends to adopt an active employee option plan.

Accordingly:

- (a) it is not permissible to provide the exercise price of options by selling the shares acquired on the exercise of these options unless the sale of those shares occurs during one of the 15 day periods specified in paragraph 4.1; and
- (b) where the exercise price of options is being provided by a margin loan or other form of lending arrangement then there may be a risk that the employee or Director may need to sell shares to avoid providing additional capital or security to the lender in the event of a decrease in the value of the shares.

Were this to occur at a time when the person possessed inside information then the sale of Company securities would be a breach of insider trading laws, even though the person's decision to sell was not influenced by the inside information that the person possessed and the person may not have made a profit on the sale. Where Company securities are provided to a lender as security by way of mortgage or charge a sale that occurs under that mortgage or charge as a consequence of default would not breach insider trading laws.

4.5 Notification of periods when Key Management Personnel can trade

The Company Secretary will endeavour to notify Key Management Personnel of the times when they are permitted to buy or sell the Company's securities as set out in paragraph 4.1.

5.0 Clearance and Notification Requirements

5.1 Clearance Requirements – Directors

Any Director wishing to buy, sell or exercise rights in relation to the Company's securities must obtain the prior written clearance of the Chairman or the Board before doing so; or

If the Chairman wishes to buy, sell or exercise rights in relation to the Company's securities the Chairman must obtain the prior written clearance of the Board before doing so.

5.2 Clearance Requirements – Key Management Personnel other than Directors

Any Key Management Personnel other than Directors wishing to buy, sell or exercise rights in relation to the Company's securities must obtain the prior written clearance of the Managing Director before doing so.

5.3 Notification

Subsequent to approval obtained in accordance with clause 5.1 and 5.2, any Director or Employee who (or through his or her Associates) buys, sells, or exercises rights in relation to Company securities must notify the Company Secretary in writing of the details of the transaction within five (5) business days of the transaction occurring. This notification obligation operates at all times but does not apply to acquisitions of shares or options by employees made under employee share or option schemes, nor does it apply to the acquisition of shares as a result of the exercise of options under an employee option scheme.

5.4 Approvals to buy or sell securities

All requests to buy or sell securities must include the intended volume of securities to be purchased or sold and an estimated time frame for the sale or purchase.

Copies of written approvals must be forwarded to the Company Secretary prior to the approved purchase or sale transaction.

5.5 Key Management Personnel sales of securities

Key Management Personnel need to be mindful of the market perception associated with any sale of Company securities and possibly the ability of the market to absorb the volume of shares being sold. With this in mind, the management of the sale of any significant volume of Company securities (i.e. a volume that would represent a volume in excess of 10% of the total securities held by the seller prior to the sale, or a volume to be sold that would be in excess of 10% of the average daily traded volume of the shares of the Company on the ASX for the preceding 20 trading days) by a Director, the Chief Executive Officer or other Key Management Personnel needs to be discussed with the Board and the Company's legal and financial advisers prior to the execution of any sale. These discussions need to be documented in the form of a file note, to be retained by the Company Secretary.

5.6 Exemption from Closed Period restrictions due to exceptional circumstance

A Director or Employee who is not in possession of inside information in relation to the Company, may be given prior written clearance by the Managing Director (or in the case of a Director the Chairman, or in the case of the Chairman all of the other members of the Board) to sell or otherwise dispose of Company securities during a Closed Period where

the person is in severe financial hardship or where there are exceptional circumstances as set out in this policy.

5.7 Severe Financial Hardship or Exceptional Circumstances

The determination of whether a Director or Employee is in severe financial hardship will be made by the Chief Executive Officer/Managing Director in the case of Employees, the Chairman in the case of a Director, and all of the Board in the case of the Chairman.

A financial hardship or exceptional circumstances determination can only be made by examining all of the facts and if necessary obtaining independent verification of the facts from banks, accountants or other like institutions.

5.8 Financial Hardship

A Director or Employee may be in severe financial hardship if they have a pressing financial commitment that cannot be satisfied other than by selling the securities of the Company.

In the interests of an expedient and informed determination by the Chief Executive Officer/Managing Director, Chairman or Board, any application for an exemption allowing the sale of Company securities during a Closed Period based on financial hardship must be made in writing, be accompanied by a statutory declaration stating all of the facts and be accompanied by copies of relevant supporting documentation, including contact details of the person's accountant, bank and other such independent institutions.

Any exemption, if issued, will be in writing and shall contain a specified time period during which the sale of securities can be made.

5.9 Exceptional Circumstances

Exceptional circumstances may apply to the disposal of Company securities by a Key Management Personnel if the person is required by a court order, a court enforceable undertaking for example in a bona fide family settlement, to transfer or sell securities of the Company or there is some other overriding legal or regulatory requirement to do so.

Any application for an exemption allowing the sale of Company securities during a Closed Period based on exceptional circumstances must be made in writing and be accompanied by relevant court and/or supporting legal documentation.

Any exemption, if issued, will be in writing and shall contain a specified time period during which the sale of securities can be made.

6.0 ASX notification for Directors

Listing Rule 3.19A requires the Company to notify the ASX within 5 business days after any dealing in securities of the Company (either personally or through an Associate) which results in a change in the relevant interests of a Director in the securities of the Company. The Company has made arrangements with each Director to ensure that the Director promptly discloses to the Company Secretary all the information required by the ASX after the date of the change and in any event no later than 3 business days after the change or another time frame which allows for compliance with the Listing Rule obligations.

7.0 Effect of Compliance with this Policy

Compliance with this Policy is mandatory. Infringement of the insider trading provisions can attract a substantial monetary penalty, imprisonment or both. Compliance with this Policy does not absolve that individual from complying with the law, which must be the overriding consideration when trading in the Company's securities.

Any breach of this Policy will be regarded as serious and will be subject to appropriate sanctions.

8.0 Contact

If you have any questions regarding this Policy, please contact the Company Secretary.

3. Membership and Structure of the Committee

The Committee members are appointed, removed and/or replaced by the Board. The term of an appointment is to be determined by the Board.

Unless otherwise determined by the Board, the Committee comprises only non-executive directors and a minimum of 3 directors. It is intended that a majority of the Committee at any time will be independent directors such that they are independent of management and free of any conflicts, business or other relationship that could materially interfere with – or could reasonably be perceived to interfere with – the exercise of their unfettered and independent judgement.

The Chairman should be an independent director and not the Chairman of the Board.

The Board will appoint the Chairman of the Committee.

The Board will review the membership and charter of the Committee annually, in accordance with paragraph 7.

The Committee has the authority, within the scope of its responsibilities, to seek any information it requires from an employee or external party.

The Committee shall have direct access to Company's senior management. The Committee Chairman shall have the authority to directly seek independent, professional or other advisers as required for the Committee to carry out its responsibilities.

4. **Administrative matters**

It is intended that the Committee will meet at least 2 times each year, or as often as the Committee members deem necessary in order to fulfil their role and objectives set out in this Charter.

Except as set out in this Charter, the Committee is subject to the Board's general policy of engaging or seeking advice from financial and legal advisers.

The Company Secretary will attend all Committee meetings as minute secretary. All minutes of the Committee will be entered into a minute book maintained for that purpose and will be open at all times for inspection by any director.

5. **Reporting**

It is intended that a report of the actions of the Committee and/or a copy of the minutes of the Committee meeting will be included in the Board papers for the Board meeting next following a meeting of the Committee.

The Chairman will, if requested, provide a brief oral report as to any material matters arising out of the Committee meeting. All directors may, within the Board meeting, request information of members of the Committee.

The Committee will conduct an annual self-appraisal of its performance with respect to the

Charter.

6. Responsibilities and functions

- ensure that the financial reports comply with accounting and financial reporting standards, ASX and legal requirements;
- oversee the adequacy of the Kina's financial controls and systems; and

- the system of control, which management has established, effectively safeguards the assets of Kina;
- processes are in place such that accounting records are properly maintained in accordance with statutory requirements; and

The following are intended to form part of the normal procedures for the Committee's audit responsibility:

- recommending to the Board the appointment and removal of the external auditors and reviewing the terms of engagement;
- approving the audit plan of the external auditors;

- monitoring the effectiveness and independence of the external auditors;
- obtaining assurances that the audit is conducted in accordance with the Auditing Standards and all other relevant accounting policies and standards;

- determining the reliability, integrity and effectiveness of accounting policies and financial reporting and disclosure practices;
- reviewing (in consultation with management and external auditors) the appropriateness of the accounting principles adopted by management in the composition and presentation of financial reports and approving all significant accounting policy changes.

6.3 **Appointment of External Auditors**
